Hi Antoinette,

When do you think we will hear from CA AG office? The reason I ask, is that if we can do one e-discovery of the request with the broadest terms, that will mean we only have to review one set of emails. Right now, the EDF request is more narrow (at least until we hear back from CA AG about the terms "due" "postpone" etc). I didn't work up the ediscovery request today for that reason. LMK your thoughts.

Dear Ms. Powell-Dickson,

I'm writing to see if there has been any movement on the captioned request. EDF is highly interested in the hard copies of reports that were mailed to the regions, as well as any information regarding any CBI materials connected with the WebFire submissions. The next round of annual reports were due on 10/30/19 and we'd like to try to figure out how to move forward with obtaining these documents, so that obtaining the next round of reports is more straightforward. We also look forward to receiving any communications as described in our request letter and as revised by previous email agreement (searching for some words in proximity to 0000a).

I wonder if it would help to have a call to discuss any outstanding issues preventing this request from moving forward. Please let me know if you think that would be helpful or if you have any update as to the status of this request.

Thank you,

Jessica Christy
